BinMaxx optimizes FEL route profitability.

BINMAXX

Front loader scale

- Provides commercial bin weights
- Arm mounted for durability
- Dynamic “weigh-in-motion”
- Ability to store up to 1000 lifts
- Compatible with on-board computers
- Optional printer

LOADMAXX

Axle Scale

- GVW, Net Payload, and Axle Group Weights
- Assists in disposal site decisions
- Eliminate overweight fines
- Tool for drivers to operate safely
- Reduce equipment abuse and related costs
- Two programmable alarm outputs
- Optional weight receipt printer

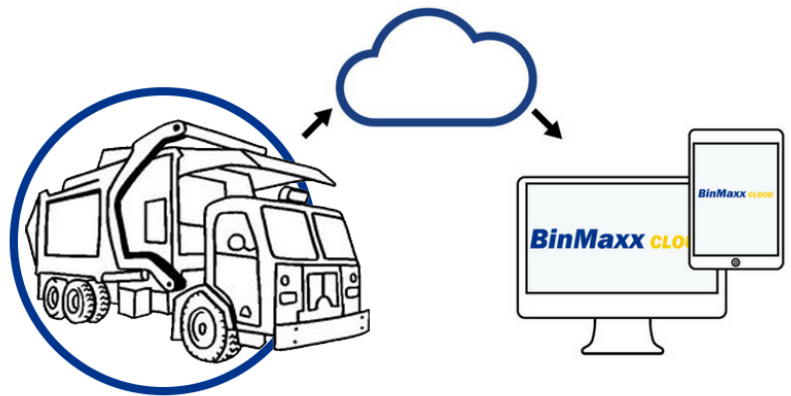

BINMAXX CLOUD

Front Loader Scale - Cloud Based Software

- Free! No subscription cost
- Access data easily and securely
- Login from any computer or smart device
- View customer information and pickup locations
- Manage pickup fees and expected charges
- Download detailed lift reports as spreadsheets and PDF

Secure data upload to the Cloud takes place behind the scenes. Your front loader's daily lift data will automatically upload to the Cloud after stopping within 150 ft line-of-sight of the Base Station located in the back office. This cloud based storage system is a cost-effective, hassle free solution for you to better manage productivity and profitability.

STOP GUESSING YOUR WEIGHT!

Talk to your dealer about the right
Air-Weigh scale for your truck.
