

# iWeigh® for Trailers

Air & Mechanical Suspensions

## The Industry's Most Advanced On-Board Scale Platform

iWeigh® is the industry's most flexible and capable on-board scale platform. iWeigh® for trailers offers outstanding accuracy and performance, while being "scalable" through over-the-air updates to include future features and networking capabilities. iWeigh® was designed for seamless connection and compatibility with our industry-leading LoadMaxx® series for both tractors and trailers. iWeigh® is easy to install and works with multiple air and/or mechanical axles on a single unit. Set up, calibration and weight is displayed on most devices through the latest and greatest Bluetooth® connection.

### iWeigh® for Trailer Features

- Easy-To-Install - Connect power and tee into any suspension air line and/or add deflection sensor to mechanical suspension
- Weight data is displayed on most phones and tablets via Bluetooth®
- Built to expand - iWeigh® can be updated over-the-air for future features
- ABS T-Breakout power connection included in kit
- Remote technical assistance - iWeigh® technology can quickly pinpoint any calibration errors or technical issues to keep your scales in top shape
- Works with both mechanical and air suspensions
- Secure data - Weight visible only through FREE Air-Weigh® app
- Backed by our 3-Year warranty
- Designed, manufactured and supported in the USA

#### AIR-WEIGH® APP - FREE

Android App - Google Play Store  
Apple IOS - App Store

#### CALIBRATION

Dual-Point Calibration

#### INTEGRATION

SAE J1939 CAN Bus and the Latest Bluetooth® 5.4 Security Protocols

#### WEIGHT

Weight Displayed in 10 lb. Increments

#### BLUETOOTH® RANGE

@ 100 ft. from iWeigh Module

#### OPERATING TEMPERATURE

-40°F (-40°C) To +185°F (+85°C)

#### ACCURACY

99+% - Air Suspension  
97+% - Mechanical Suspension

#### LIMITED WARRANTY

3-Years, Made & Supported in USA
